

MOISSAC GROUPS DISCOVERY

The abbey and the Romanesque cloister

Established at the foot of the vineyards of Quercy, the abbey of Moissac is one of the Romanesque Art masterpieces in the western world. The sculptures' refinement of its portal, the 76 capitals of its cloister and the significance of the impact of this intellectual center made it classified at the World Heritage as part of the « pilgrimage to Saint-James of Compostela ».

The certified guide will accompany you from the cloister to the abbey church*, including the monumental portal, to make you discover the 1000 years of life of this major heritage site.

**The guide reserves the right to not enter in the abbey church during the offices and others religious ceremonies*
